The 222CC may be the smallest model in the Blackfin lineup, but that doesn't mean it's not just as powerful. Built on the same time-tested principles as its bigger brothers, the 222CC was designed with a sharp forward entry, variable deadrise, and large freeboard, providing you with the comfortable and worry-free ride you've been looking for. Equipped with a Fiberglass Hardtop System, leaning post, custom seating with flip-down bolsters and molded-in footrests for stability, the helm station is a captain's dream. Dedicated rod storage, versatile seating arrangements, and an abundance of standard and optional features make the 222CC the perfect vessel for handling anything from the

toughest fishing grounds to simply relaxing at the sandbar.
